## BURNS RAPS GOMPERS

America's Labor Leader Planned His  
Assassination.

A very remarkable accusation against Samuel Gompers, president of the American Federation of Labor, was made by Detective William J. Burns at New York, when he arrived in that city on his trip across the continent following clues to the men "higher up" in the labor union whom he believes were behind the McNamaras in their dynamiting activities.

"The purpose of Gompers in his incendiary talk was to get me assassinated," said Burns in an interview at the Herald Square hotel shortly after his arrival. "When he gave out his statement after these men were arrested, in which he accused me of framing up a case and planting the dynamite, he planned to excite some crank so that he would take a shot at me. He supplied the keynote for attacks upon me from street corners and in Socialistic organizations by his remarks with the same end in view. Ask Francis J. Heney in San Francisco and he will tell you that I expected they would try to get me and I told him that if they did for him to get Gompers, as I knew he would be responsible. I was warned from the inside that I was to be assassinated

AGRICULTURE WILSON

### DIRTY-EGGS COST FARMERS MILLIONS

West Virginia Shares in Great Annual Loss—Infertile Eggs Will Not Spoil So Easily as Fertile Eggs and Can Stand More Heat, Which is the Cause of One-Third of the Loss.

Five million dollars a year is the estimate of the Department of Agriculture of the amount lost by the farmers of the United States on account of dirty eggs. And, of course, West Virginia being a great egg producing State shares in that loss. This loss says secretary Wilson of the Department of Agriculture, is very largely brought about by not gathering the eggs often enough. In wet weather more dirty eggs are found than at any other time, because the mud or other filth carried into the nest on the hen's feet. Eggs deposited on the ground or around hay and straw stacks become stained and are classed as "dirties." While dirty eggs may be perfectly fresh, they invariably sell in the market as

## MAY LOSE EYESIGHT

Sheriff of Wyoming County Wiped  
Turpentine and Sulphuric Acid

John W. Ball, sheriff of Wyoming county, whose home is at Pineville, has gone to Cincinnati accompanied by Dr. Myers, of Pineville, to consult a specialist who will be asked to do what he can to save Sheriff Ball's eyesight. A few days ago the sheriff attempted to mix sulphuric acid with turpentine in a bottle with the intention of making a lime for application on an animal. After the acid and turpentine had been placed in the bottle the sheriff commenced to shake the contents with the result that an excess of the acid burst in his face and eyes. He was seriously burned and his eyesight is expressed. Sheriff Ball, in addition to being one of the wealthiest men in Wyoming county, is also a large owner of land and timber lands.

### "Ketched a Bear"

Columbus Riddle, better known simply as "Lum," who lives at the dam on Williams river, caught a large bear in a pen at the head of Ken's creek Monday night. Bruin was unusually fat and weighed close to three hundred pounds. Pat Gay and John Moore brought several pounds of the meat to Marlinton Wednesday with which they treated some of their friends at the Warwick restaurant.

"I had been troubled with constipation for two years and tried all of the best physicians in Bristol, Tenn., and they could do nothing for me," writes Thos. E. Williams, Middleboro, Ky. "Two packages of Chamberlain's Stomach and Liver Tablets cured me." For sale by all dealers.

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia. This remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. Sold by all dealers.
